

SUPEREME COURT OF INDIA

Arana Ramchandra Shanbaug

Vs.

Union of India

Crl.A.No.115 of 2009

(Markandey Katju and Gyan Sudha Misra,JJ.,)

24.01.2011

ORDER

1. Heard learned counsel for the petitioner.
2. Euthanasia is one of the most perplexing issues which the courts and legislatures all over the world are facing today. This Court, in this case, is facing the same issue, and we feel like a ship in an unchartered sea, seeking some guidance by the light thrown by the legislations and judicial precedents of foreign countries.
3. The case before us is a writ petition under Article 32 of the Constitution, and has been filed on behalf of the petitioner Arana Ramachandra Shanbaug by one Ms. Pinki Virani of Mumbai, as a next friend.
4. It is stated in the writ petition that the petitioner Aruna Ramachandra Shanbaug was a staff Nurse working in King Edward Memorial Hospital, Parel, Mumbai. On the evening of 27th November, 1973 she was attacked by a sweeper in the hospital who wrapped a dog chain around her neck and yanked her back with it. He tried to rape her but finding that she was menstruating, he sodomized her. To immobilize her during this act he twisted the chain around her neck. The next day on 28th November, 1973 at 7.45 a.m. a cleaner found her lying on the floor with blood all over in an unconscious condition. It is alleged that due to strangulation by the dog chain the supply of oxygen to the brain stopped and the brain got damaged.
5. It is alleged that the Neurologist in the Hospital found that she had planters' extensor, which means damage to the cortex or some other part of the brain.
6. She also had brain stem contusion injury with associated cervical cord injury.
7. It is alleged at page 11 of the petition that 36 years have expired since the incident and now Aruna Ramachandra Shanbaug is about 60 years of age. She is featherweight, and her brittle bones could break if her hand or leg are awkwardly caught, even accidentally, under

her lighter body. She has stopped menstruating and her skin is now like papier mache' stretched over a skeleton. She is prone to bed sores. Her wrists are twisted inwards. Her teeth had decayed causing her immense pain. She can only be given mashed food, on which she survives.

8. It is alleged that Aruna Ramachandra Shanbaug is in a persistent vegetative State and virtually a dead person and has no state of awareness, and her brain is virtually dead. She can neither see, nor hear anything nor can she express herself or communicate, in any manner whatsoever.

9. Mashed food is put in her mouth, she is not able to chew or taste any food.

10. She is not even aware that food has been put in her mouth. She is not able to swallow any liquid food, which shows that the food goes down on its own and not because of any effort on her part. The process of digestion goes on in this way as the mashed food passes through her system. However, Aruna is virtually a skeleton. Her excreta and the urine is discharged on the bed itself. Once in a while she is cleaned up but in a short while again she goes back into the same sub-human condition. Judged by any parameter, Aruna cannot be said to be a living person and it is only on account of mashed food which is put into her mouth there is a facade of life which is totally devoid of any human element. There is not the slightest possibility of any improvement in her condition and her body lies on the bed in the KEM Hospital, Mumbai like a dead animal, and this has been the position for the last 36 years. The prayer of the petitioner is that the respondents be directed to stop feeding Aruna, and let her die peacefully.

11. Although, notice had been issued by this Court on 16.12.2009 to all the respondents in this petition, the only counter affidavit which has been filed is that on behalf of the respondent no.3 and 4, the Mumbai Municipal Corporation and the Dean, KEM Hospital. That affidavit, of Dr. Amar Ramaji Pazare, Professor and Head in the said hospital, states in paragraph 6 that Aruna accepts the food in normal course and responds by facial expressions. She responds to commands intermittently by making sounds.

12. She makes sounds when she has to pass stool and urine which the nursing staff identifies and attends to by leading her to the toilet.

13. Thus, there is some variance between the allegations in the writ petition and the counter affidavit of Dr. Pazare.

14. In the circumstances we are of the opinion that a team of three doctors should be appointed to examine Aruna Ramachandra Shanbaug thoroughly and give a report to us about her physical and mental condition. For this purpose we are appointing a team of following three doctors:
